Jeronimo Ortiz

email: jeronimoortizlr@gmail.com
linkedin: https://www.linkedin.com/in/jeronimo-ortiz-2b71041b2/

Really good at solving problems, eager to learn new things.

Areas of Knowledge

- Experience with multiple cloud providers/platforms (**AWS**, **Azure**, **GCP**, **OCI**) .
- Good knowledge of **new technologies** in general.
- **IaC**: Infrastructure deployment pipeline using **Jenkins**, **Terraform** and **Ansible**.
- **Python** scripting.
- Operating systems: **Windows**, **Linux**.
- **Containers**: **Docker**, **ECS**, **Fargate**.
- Experience in teams that adopted the **Scrum framework**.
- I like **learning** something new every day.

Professional Experience

Arcos Dorados – DevOps(June 2023 – Present)

Experience with AWS and Azure. Worked with IaC deploy pipeline using Terraform and Jenkins. Solutions architecting. Support and governance responsibilities.

Cognizant Technology Solutions – Cloud Engineer (March 2023 – June 2023)

Providing support for Google Cloud's Apigee (API management) service. Configuring API proxies. Using Postman for testing and monitoring. Experience with Google Cloud Platform, and Apigee platform (Apigee Edge). Followed a training plan designed by Google. Technical escalations with Apigee and Google representatives.

Hewlett-Packard Enterprise – Data Services Champion (May 2022 – March 2023)

Co-Development of the entry storage business. Monitoring and metrics consolidation. Worked alongside the marketing department with demand generation activities. Sales planning, pricing and consolidation of budgets. Provided sales and technical training (internal and partners).

Laboratorios Roemmers – Help Desk (October 2021 – Dic 2021)

Provide help desk support to end users of proprietary software. Document all issues and generate reports detailing common problems and error trends. Fill in for in-house IT services as needed, installing new desktop systems and hardware devices.

Languages

English (upper-intermediate), Spanish (native)
